

SWANN ROCKER SWITCHES

Please note: This catalogue is primarily a listing of all the common Swann replacement products. **Globelink is the sole NZ agent for Swann** and there are many items not listed that are available for OEM quantities. These include new series & styles now being manufactured by Swann. OEM quantities generally start at 500. Where feasible, Globelink will stock any new replacement manufacturers' spares.

REF: SPDT/DPDT

WHERE A PARTICULAR SWITCH IS MANUFACTURED IN BOTH OF THESE CIRCUITS, WE STOCK THE ON/ON VERSION. THESE CAN BE USED FOR EITHER ON/OFF OR ON/ON APPLICATIONS.

SWANN SPECS:

DIELECTRIC STRENGTH	3500V
INSULATION RESISTANCE	50 MEG-OHMS
MECHANICAL LIFE	100,000 OPERATIONS
LIFE AT FULL LOAD	20,000 OPERATIONS
CONTACT BREAKDOWN	2000V FOR 1 MINUTE
INRUSH CURRENT	70 AMPS

Switching Current:

INDUCTIVE	4 AMPS @ 250VAC
RESISTIVE	16 AMPS @ 250VAC

MATERIALS:

Body	Nylon 6.6 flame retarded ul94-v2
Rocker	Polycarbonate or nylon 6.6
Terminals	Copper/silver UL or CSA copper/tin VDE Min 6 microns plated

APPROVALS:

<i>UNDERWRITERS LABORATORIES</i>	<i>UL</i>
<i>CANADIAN STANDARDS ASSOC.</i>	<i>CSA</i>
<i>FRANCE</i>	<i>VDE</i>
<i>AUSTRALIA</i>	<i>BEAB & SECV</i>
<i>EUROPEAN</i>	<i>KEMA KEUR</i>

Fax us a picture & description - or simply send us your switch if necessary & we will endeavor to advise a suitable replacement from stock. Quantity orders can be indented.

SWANN COMELUX ROCKERS

MD401/START

(Closest replacement for Swann EA211: Approx 2mm variance in length)

- ◆ White body, amber illum.
- ◆ Dpst on-mom-on
- ◆ Push to start
- ◆ Hot stamped start vertically
- ◆ down rocker as shown
- ◆ 16a 240vac
- ◆ Temp rating: 100 deg c
- ◆ Silver plated brass terminals
- ◆ Silver contacts

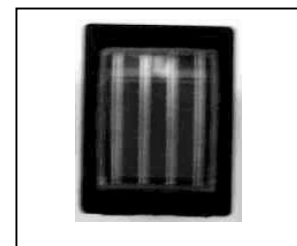

MD36L2R

- ◆ 16a/240vac snap-in rocker
- ◆ Black body, Red Illuminated
- ◆ On-off spst x 2
- ◆ Temp rating: 120 degc.
- ◆ Silver plated brass terminals (.250mm)
- ◆ Silver contacts

MD401/L

- ◆ Water & dust resistant
- ◆ Transparent natural clear plastic protecting cap
- ◆ Black body, red illuminated
- ◆ DPST on/off
- ◆ 16Amp, 240vac
- ◆ Temp rating: 100 deg c
- ◆ Silver plated brass terminals
- ◆ Silver contacts

General information on the Swann rocker switch selection

- In general - no two brands of switches are identical - in fact switch manufacturers protect their market by specifying designs and cut-out sizes that are unique to their brand. However, some switches though not identical, will fit the same cut-out size.
- The **Swann 40 Series** Switches fit the same cut-out as the **Eaton 1600 Series** Rockers & Indicators.
- The **1606-11E** (10amp SPDT) is the **ONLY** Rocker available ex-stock that is **On>Off<On**. For varying circuits other than SPDT, we can only offer a toggle switch (see page 2).
- The **Swann 50 Series** Switches fit the same cut-out as the **Eaton 2600 Series** Rockers & Indicators

SWANN TOGGLES Series 475

SERIES 475

Wedge Lever
